# **NASA 2004 Safety & Health Managers' Meeting**

**Cocoa Beach Hilton, Florida**

**March 1-5, 2004**

**Jonathan B. Mullin**  
**Safety and Assurance Requirements Division**  
**Office of Safety and Mission Assurance**

## **SHARE –Presidential Direction**

---

- **January 9, 2004, President Bush designates Secretary of Labor Elaine L. Chao to lead Safety, Health, and Return-to-Employment (SHARE) Initiative**
- **President directed all Executive Branch agencies to participate**
- **SHARE Initiative covers three-year period beginning with FY 2004**

## **SHARE**

---

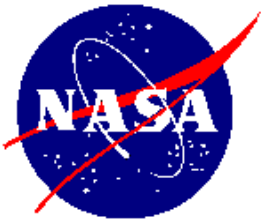

- **SHARE is a new, more forward-looking initiative to replace “Federal Worker 2000”**
- **Critical targets of SHARE are similar to goals of “Federal Worker 2000”**
- **Cost of Federal workplace injuries, measured by worker’s compensation losses, exceeds two billion annually**
- **FY 2003, 2.7 million federal employees filed more than 168,000 new worker’s compensation claims**
- **Reports resulted in over two million days lost from work**

# **SHARE- Direction from Secretary of Labor**

---

- **Memorandum For The Heads Of Executive Departments and Agencies**
  - The President has directed the Department of Labor to lead a major new initiative, **SHARE**, to promote **Safety, Health, and Return-to- Employment** of Federal workers injured on the job
  - To demonstrate the Administration's commitment to worker safety and health,
  - To reduce the personal and financial cost of accidents in our Federal workplaces

## **SHARE-GOALS**

---

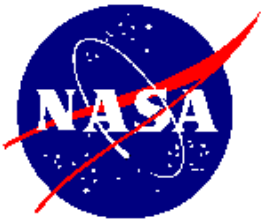

- **The President asks each agency to set goals in the following areas:**
  - **% Reduction in total case rates for injuries and illness**
  - **% Reduction in case rates for lost time injuries and illnesses**
  - **% Improvement of the timeliness of filing notices of injury and illness**
  - **% Reduction in the rates of lost production days due to injuries and illnesses**

## SHARE-Performance

---

- **FY 2003 performance for each agency will be the baseline for the initiative**
- **NASA FY 03 Performance**
  - **Lost Production Days- 9.9**
  - **CA-1/CA-2 Timeliness-47.9%**
  - **Total Case Rates-0.75%**
  - **Lost-Time Case Rates-0.22%**
- **The NASA DASHO responded to Assistant Secretary Occupational Safety and Health Administration with the following NASA Goals for FY 04**
  - **1% reduction in rates of lost production days due to injuries and illnesses**
  - **5% improvement in timeliness of filing notices of injury and illnesses**
  - **3% reduction in case rates for lost time injuries and illnesses**
  - **3% reduction in total case rate for injuries and illnesses**

## **SHARE**

---

- **Summary**
  - **All Centers brief their senior leadership, management, employee representatives, and employees on SHARE via Center orientations, safety meetings, and recurring training, etc.**
  - **SHARE will be reported by each NASA Center as a component the Agency Annual OSHA Report to Codes Q/Z**
  - **Questions?**
